BETHEL HISTORICAL SOCIETY TO HONOR FORMER LOCAL ARTIST

On Memorial Day week end, May 24-26, The Bethel Historical Society will sponsor the first "Faye Taylor Memorial Art Show". This exhibition, which is open to M. S. A. D. #44 student artists as well as adults, honors one of the Society's strongest, early supporters. It also marks the organization within The Bethel Historical Society of an art committee whose purpose it is to stimulate the society's interests in area history expressed through art and the role of artistic achievement in local historical development. The Moses Mason House is an excellent example of this approach to art in local history with its Rufus Porter murals and portraits of Dr. and Mrs. Mason by Chester Harding.

The art exhibition will feature some of the paintings by the late Faye Taylor whose talent and interest in encouraging youngsters to develop their own talent as well as promoting adult classes often held in her home in Kimball Park contributed significantly to the cultural activities of the Bethel area.

Greenwood City

— Mrs. Colista Morgan, Corres. —

Our weather during the week has been varied by slight rains, dustings of snow and sunshine. At times single clouds grew in the blue above, ripening in an hour to shower the landscape, then passing away like a thought, leaving nothing visible to stain the sky.

But Sunday afternoon it was much too lovely to stay inside, a blue golden day. So Ruth and I decided to walk what we call The Loop. It's a three mile hike and almost entirely through the woods taking us by the Town Meeting Elm and over the first county road then down over Patch Mountain.

We found the outdoors coming to life after a long winter sleep. Some of the bird choir had returned. The air was sweet with fragrance of damp earth and growing things.

As we pitched over a small hill we heard THE spring sound, the guttural, rumbling gr-r-r-ock rolling those middle "r"s. I think those are the leopard frogs. No peepers. As we neared the pool all became silent. How did they know that we were passing? We were eavesdroppers to this mystery, and this moment and this place were sustained and witnessed by us alone. The earth was new. We felt that way, too. We could feel spring coming to the awakening land. The mellow warmth of the sun's rays made us remove our jackets.

Turning left near the Elm we stopped briefly at the river bridge to enjoy the purity of the water. Its voice was low, the flood having waned somewhat. There was drifting gauze and thin-bordered folds of lacework. The sunbeams were glinting across it, leaving the rest in shadow.

We climbed the next hill between dark, unsweeping forests until we came to the most beautiful spot on the mountain.

How changeless seemed the distant mountains. How soothingly, restfully cool and quiet it was beneath a clump of birches. How true and substantial was the building in its shadow-beauty, as if afraid of noise.

As we left for the down hill of our journey to the car, soothing voices in sweet accord were whispering peace. This had been our first visit of 1980. It was a pure mountain day, warm, calm, and almost cloudless. How serenely wild. The next time we journey the "Loop" along the river, in the ground, in the sky, over the hills, the spring work now going on with joyful enthusiasm will be changed.

New life, new beauty, unfolding glorious extravagance, new flowers, new birds, new winged creatures in the air, will bring rejoicing everywhere. We'll again pause beneath the birches looking again to surrounding mountains, gloriously clothed with light, to the belt of blue and greens, marking the extent of the forests. These colors from the blue of the sky to the soft green of the valley will be smoothly blending, as they do in a rainbow. Over all of our wanderings this will still remain one of restful beauty.

Sympathy goes to the family of Mahlon Grover. He will be greatly missed. Mate as he was affectionately known to his friends and neighbors, was always putting around at his home, and in summer, he was a familiar sight out working up his woodpile, or hoeing his garden. He had a wonderful sense of humor, always saying something to make you laugh, no matter how low down in the dumps you might feel. We all will miss him.

Mrs. Kay O'Leary of South Paris had Sunday dinner with sister Josie. Other Sunday callers at the Sanderson home were Mr. and Mrs. Elmo Nowell and daughter, Julie, of Bridgton, and Mr. and Mrs. Murray Cooper and grandson, Wayne, of Arlington, Mass. FRANKLIN GRANGE #124

The Selectmen have been notified by the State Department of Transportation, that failure of the Legislature to provide additional revenue for the D.O.T. will mean substantial cutbacks in highway programs, which will mean an increase in local taxation for road maintenance. Due to lack of funds and a substantial increase in pavement marking paints, the road marking program will be reduced for the 1980 season. Plans now call for marking approximately 4,300 miles of centerline and no edgelines compared to 6,000 miles of centerline and 1,000 miles of edgeline for previous years. Centerline markings will be limited to essentially routed highways with an average daily traffic volume of approximately 500 vehicles, or over, except for very specific instances of high traffic volumes or high accident rates. Highways now designated as State Aid will be reviewed and some may be reclassified as Town Ways. Cutbacks will be made in the State Construction matching funds raised by towns in 1980, and only one unit will be matched with State funds. At the Annual Town Meeting in March, Newry appropriated money for four units, with the understanding that each unit would be matched by State Funds on a basis of \$1 in State money to \$1 Town funds.

Also, loss of Town Road Improvement Funds will mean additional road maintenance money must be raised locally, which will result in higher local property taxes. Unless the Governor and the Legislature can come up with a compromise on State D.O.T. funding, local taxpayers will face higher tax bills next year.

The Dog Warrant, together with a list of unlicensed dogs, will be issued to the Constable on May 1. Unless licenses are paid before May 5, there will be an additional charge of \$4, to be paid to the Constable, over the license fee. Failure to pay could mean court action. Anyone keeping a dog, not their own, is liable for the license and extra fee, as well as for their own dogs. To avoid the extra cost and possible court action, all dog owners, or keepers, should pay the license fee to Mrs. June Swan, Town Clerk, before May 5.

Mrs. Arsenault's foods class at Telstar Regional High School has completed its work with the milk foods group. The class discussed how important it is to have milk in one's diet. Even though you may not be a milk drinker, there are many ways to get milk in your diet; for instance, over cereals, in cream sauces, soup dishes, casseroles, milk shakes, and cheese.

The class thought that you might like to try one of the dishes prepared in class. We hope you enjoy the dish as much as we did.

The Week in Washington

by Sen. Edmund S. Muskie
Earth Day 1980 — Part II

The times have changed dramatically since Earth Day 1970 when gasoline sold for 40 cents a gallon. Today not only environmental security but also our national security rests heavily on resource and economic advantages.

We are presently experiencing domestic and global inflation at an unprecedented level; the world's population is rising rapidly; global industrial output is doubling every 20 years; the United States has doubled its energy consumption every 10 years.

Economic and political power have shifted—from the oil consuming nations to the oil-producing nations; power has shifted from the importers of natural resources to the exporters.

Unlimited progress has finally come face to face with finite resources—and the reality of essential raw material shortages will put great stress on our traditional ideals, our behavior patterns, and our economy.

In Philadelphia, on Earth Day, 1970, I said: "We have to choose to say no, and to give up some luxuries. And these kinds of decisions will be the acid test of our commitment to a healthy environment."

On Earth Day, 1980, we still have difficult decisions to make but there are fewer choices.

We must choose to use less, reuse more and respect the raw materials we have wasted for so long. Bottle and other recycling programs must be encouraged, including the "recycling" of older buildings and neighborhoods.

To succeed in the next decade, the "environmental movement" must include every economic, social and racial group. It must rally workers, students, businessmen, blacks, whites, chicanos to make conservation relevant to their daily lives.

More emphasis must be put on controlling the threat of toxic pollutants in the cities. Poor people, especially in urban areas, are the most vulnerable to air pollution, exposure to toxic chemicals and other environmental ills.

There should be more environmental education for our young people and each one of us must rely less on technological breakthroughs to cure all our problems.

We must rely less on government spending and more on government planning and our own wise use of resources.

And we must conserve energy in every possible manner, to ease the pressure on our resource and on environmental goals.

The agenda ahead will not be easy. We are no longer talking about ecology decals on school

notebooks, but the conservation of a stable, survivable planet. It will be difficult, especially if the "environmental decade" established in the first half of the seventies is consumed by the "me-generation" of the second half. A resource-scarce and resource-greedy world will only perish by its own selfishness.

Citizens still want government to protect them against the dumping of hazardous wastes and radiation from nuclear power plants. But they must also be energetic about their own responsibilities.

Instead of the me-generation, I hope we can turn the corner on a re-generation of the spirit of Earth Day 1970. A re-generation of means and motives—in the 1980's—not to hinder freedom, but to guarantee it.

AWARD-WINNING FILM TO BE SHOWN MAY 4 AT BETHEL GOSPEL CENTER

"No Longer Alone," winner of three prestigious film-industry awards, will be shown on Sunday, May 4, at the Bethel Gospel Center on Route 26. The showing, open to the public free of charge, is scheduled to begin at 6 p. m.

The film, a true story, takes a close look at a woman who was searching desperately for love and acceptance, but whose cries went unheard by those who surrounded her.

Originally released by World Wid. Pictures in commercial theaters, the film is now one hour in length in preparation for its eventual presentation as a television special.

"No Longer Alone" traces the life of an English actress, Joan Winmill Brown. Though she skyrocketed to fame on the British stage, her life was marked by a frantic grasp for personal fulfillment and love. Tormented by a past she was unable to forget, she succumbed to a series of nervous breakdowns; and, at one point, attempted to take her own life.

In her ultimate moment of despair, Joan was invited by a "chance" phone call to attend a Billy Graham crusade. It was here that she first discovered her worth as an individual and began her long struggle to piece her shattered life back together.

Those who have followed Billy Graham's ministry will be interested to know that Dr. Graham appears in the film in some of the footage of his 1954 London Crusade, and also in the introduction and conclusion to the film, photographed recently for this special version.

According to William F. Brown, president of World Wide Pictures, "No Longer Alone" was presented with the "Award of Excellence" from the Film Advisory Board of Hollywood, as well as the "Angel" award from Religion in Media in America, as the outstanding religious film of the year. It also received the "Silver Halo Award" from the Southern California Motion Picture Council.

"No Longer Alone" was filmed on location in London, and stars Belinda Carroll, Wilfrid Hyde White, James Fox, Samantha Gates, and Gordon DeVol. Simon Williams, who has one of the leading roles in the BBC production, "Upstairs, Downstairs," also stars in the film. The title song was performed by the popular recording artist, B. J. Thomas. (Rated P-G.)

STATE, D. E. P. TO INSPECT MUNICIPAL SOLID WASTE FACILITIES BY SEPT. 1

Between now and Sept. 1 all solid waste facilities used by Maine municipalities will be thoroughly inspected by the Department of Environmental Protection to determine eligibility for participation in the Maine Solid Waste Management Subsidy Program.

The inspections will be conducted by staff members of the DEP's Bureau of Land Quality Control. Bureau Director Hollis A. McGlaflin said only those municipalities using facilities found to be "in substantial compliance" with Maine's Solid Waste Management Regulations would be eligible to receive state funds from the Solid Waste Management Subsidy Law enacted by the 109th Legislature in 1979.

Municipalities will not receive advance notice of the inspections. If municipalities knew in advance we might not get an accurate picture of day to day operations. Even if we wanted to give advance notices we couldn't logistically support a set schedule due to staff and fund limitations," McGlaflin said.

In letters sent earlier this week all municipalities were notified of the impending inspections and their importance in determining eligibility for receiving the subsidy funds. The letters were accompanied by copies of the law, the solid waste management regulations and the check list inspectors will be using for determining substantial compliance.

The inspections will be conducted

WALKING WITH JESUS CHRIST

The Queen of Sheba gazed in awe and wonder as she beheld the wisdom and wealth of Israel's "King Solomon" — having come hundreds of miles bearing gifts — to see and learn first hand of God's blessings upon Israel, a nation that loved God. — she turned and went away to her own land, she and her servants! A sad commentary, for she did not know God.

The land of Israel — feasting and rejoicing — worshiped and praised God, saying "For he is good; for his mercy endureth forever!" — II Chron. 7:4 — living off the fat of the land, were not long being removed from their lofty estate to one of slavery and misery having turned from God.

Is there a parallel here? — as so many see the beauty of God's creation and the pure joy of the Christians — even in times of trouble — that some cannot comprehend the love of Christ? And, like the Queen of Sheba turn away to go our separate paths — having a form of godliness — not willing to step over the invisible line into the loving arms of the very One who created us — saying — "Jesus, I love you."

America the beautiful — blessed with an abundance of natural resources — a land of milk and honey — fields of amber grain from sea to shining sea — a bread basket for all the world — a champion for the cause of freedom — a nation upon whose coins are inscribed the words: "In God We Trust."

We see our nation beset with many problems, both domestic and foreign. Are we like the ancient Israelites — I Kings 9:4 — "having failed to walk in the integrity of heart, and in righteousness, to do all God has commanded us?" — Yes — we have failed — but, there's still time — II Chron. 7:4 — "If my people, who are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways, then will I hear from heaven, and will forgive their sin, and will heal their land."

Let us pray, seeking God's wisdom; pray for President Carter and leaders of State — for them to heed the voice of our God — and to heed the counsel of Godly men and women.

And, as Jesus said, "— Fear not, I am the first and the last; I am he that liveth, and was dead; and, behold, I am alive for evermore, Amen, and have the keys of hell and of death." Rev. 1:17, 18.

Municipalities using private disposal facilities or facilities operated by another municipality are eligible to participate in the subsidy fund as well as those municipalities operating their own disposal sites, according to McGlaflin.

OUR LADY OF SNOWS PARISH ENJOY SUPPER AND SOCIAL

The Bethel Legion Hall was the scene April 27 of the Third Annual Supper and Social for Our Lady of the Snows Parish.

Weeks of preparation and fund raising proved very worthwhile. There were lots of hungry faces at the buffet table as approximately 110 people came to make this get-together a smashing success.

The entertainment was provided by the Telstar Jazz Band under the direction of Jerry Healey. Selections of popular and big band music were enjoyed by all.

The lucky (and very astonished) winners of a 12 pound roast beef and all the trimmings were Mr.

Safety Tip of the Week

Protect Older Citizens—We may get wiser as we older, but we don't get more nimble-footed. Here are some suggestions on how older people can avoid falls and related injuries:

—Use a night-light or have a light switch beside the bed.

—Keep stairways well lit.

—Have sturdy handrails on both sides of the stairs.

—Use non-skid treads on stairs, and keep carpets firmly tacked down.

—Move furniture and other obstacles out of the normal travel path through the house.

—Install grab bars on bathroom walls and use non-skid mats in the tub.

—Keep outdoor steps and walkways in good condition and clear of anything that could cause a person to stumble.

HISTORIC RESOURCE SURVEY FOR BETHEL PROGRESSING

The Bethel Historic Resource Survey, begun the week of April 14, has progressed to the point where 25 local volunteers are working in the field, recording information about the buildings of the town. Several batches of forms have been completed and returned by volunteers to the Survey office at the Moses Mason House, some accompanied by photographs taken by the surveyors.

Oxford County Survey Director George Allen says that the Bethel project is "well begun," but notes that several areas of the town have not yet been assigned. "I would very much appreciate hearing from people who might have five to six hours to devote to the survey over the course of the coming month."

With some additional help, the survey for Bethel will be the first one completed in the county. The survey has been started in other localities: Peru, Mexico, Dixfield, Fryeburg, Glen and Hebron among them. In Hiram, members of the Historical Society are now filling out forms for Hiram Village and East Hiram. In Woodstock, the work of the children at the Woodstock Elementary School, directed by Mary Billings, has yielded a lot of information about houses that will be basic to the survey there. Allen will be giving a workshop for survey volunteers in Greenwood on May 12 at 7:30 p. m. at the Town Hall, and some members of the Greenwood Historical Society have expressed the hope that Greenwood will complete its survey by early June.

The survey will be assisted in May by two Gould Academy students, Jim Kowalski and Nora Murphy, who will work on the survey as their senior project. Ann Hobart, a staff member of the Androscoggin Valley Regional Planning Commission in Auburn, will also be working on the survey, undertaking districts in the southern part of the county.

Allen anticipates support from school classes in Rumford in May as well—Rumford Junior High School students will do some survey work projects for their Maine and local history courses.

Allen will address the Hebron Historical Society this coming Saturday, May 3, showing slides of Oxford County buildings and discussing the survey with people from Hebron and surrounding towns.

FREE BLOOD PRESSURE SCREENING MAY 9 IN NORWAY

Since the month of May is National Hypertension Month, the Medicine Shoppe pharmacy in Norway is offering to the public a free blood pressure screening on Friday, May 9, from 9:30 a. m. to 5:30 p. m. at the corner of Alpine and Paris Streets. Nurses from the Allied Health Nursing Service are administering the program, free to the community. In addition to the screening, informational literature will be available. The screening is being conducted in an effort to create an awareness among the public of the effects of high blood pressure, and to help detect those who may have the disease and be unaware of it.

"We see the pharmacist as an important part of the health care team," says Henry Pelletier, pharmacist. "We believe these screenings will help to identify some of the 25 million Americans who are victims of high blood pressure."

High blood pressure is a killer, claiming the deaths of approximately 60,000 Americans annually and contributing to the death of 750,000 others.

The blood pressure screening is one of several free health screenings offered regularly to the public by the prescription-oriented pharmacy. Others include those for diabetes, colon-rectal cancer, oral cancer and clinics for known diabetics and those with foot problems.

AWARD-WINNING FILM TO BE SHOWN MAY 4 AT BETHEL GOSPEL CENTER

"No Longer Alone," winner of three prestigious film-industry awards, will be shown on Sunday, May 4, at the Bethel Gospel Center on Route 26. The showing, open to the public free of charge, is scheduled to begin at 6 p. m.

The film, a true story, takes a close look at a woman who was searching desperately for love and acceptance, but whose cries went unheard by those who surrounded her.

Originally released by World Wide Pictures in commercial theaters, the film is now one hour in length in preparation for its eventual presentation as a television special.

"No Longer Alone" traces the life of an English actress, Joan Wimmill Brown. Though she skyrocketed to fame on the British stage, her life was marked by a frantic grasp for personal fulfillment and love. Tormented by a past she was unable to forget, she succumbed to a series of nervous breakdowns; and, at one point, attempted to take her own life.

In her ultimate moment of despair, Joan was invited by a "chance" phone call to attend a Billy Graham crusade. It was here that she first discovered her worth as an individual and began her long struggle to piece her shattered life back together.

Those who have followed Billy Graham's ministry will be interested to know that Dr. Graham appears in the film in some of the footage of his 1954 London Crusade, and also in the introduction and conclusion to the film, photographed recently for this special version.

According to William F. Brown, president of World Wide Pictures, "No Longer Alone" was presented with the "Award of Excellence" from the Film Advisory Board of Hollywood, as well as the "Angel" award from Religion in Media in America, as the outstanding religious film of the year. It also received the "Silver Halo Award" from the Southern California Motion Picture Council.

"No Longer Alone" was filmed on location in London, and stars Belinda Carroll, Wilfrid Hyde White, James Fox, Samantha Gates, and Gordon DeVol. Simon Williams, who has one of the leading roles in the BBC production, "Upstairs, Downstairs," also stars in the film. The title song was performed by the popular recording artist, B. J. Thomas. (Rated P.G.)

STATE, D. E. P. TO INSPECT MUNICIPAL SOLID WASTE FACILITIES BY SEPT. 1

Between now and Sept. 1 all solid waste facilities used by Maine municipalities will be thoroughly inspected by the Department of Environmental Protection to determine eligibility for participation in the Maine Solid Waste Management Subsidy Program.

The inspections will be conducted by staff members of the DEP's Bureau of Land Quality Control. Bureau Director Hollis A. McGlaulin said only those municipalities using facilities found to be "in substantial compliance" with Maine's Solid Waste Management Regulations would be eligible to receive state funds from the Solid Waste Management Subsidy Law enacted by the 109th Legislature in 1979.

Municipalities will not receive advance notice of the inspections. If municipalities knew in advance they might not get an accurate picture of day to day operations. Even if we wanted to give advance notices we couldn't logistically support a set schedule due to staff and fund limitations," McGlaulin said.

In letters sent earlier this week all municipalities were notified of the impending inspections and their importance in determining eligibility for receiving the subsidy funds. The letters were accompanied by copies of the law, the solid waste management regulations and the check list inspectors will be using for determining substantial compliance.

The inspections will be conducted

BASEBALL AND SOFTBALL COACHES CLINIC TO BE OFFERED BY ADULT ED.

The S. A. D. #44 Adult and Community Education program area Recreation Boards are cooperating in offering a one-night Coaches Clinic for individuals who will be working with the summer baseball and softball programs sponsored by district towns. The Clinic will be held on Thursday evening, May 8, beginning at 7 a. m. Telstar Regional High School. Two veteran members of Telstar's coaching staff have been engaged to instruct the clinics: Peter Brown will be in charge of the Baseball Clinic and Gerry Durgin will be in charge of the Softball Clinic. The two-hour sessions will combine classroom and gym work, and will allow ample time for questions. Questions regarding the clinics may be directed to the Adult and Community Education office at Telstar, 824-2136, ext. 25.

McLain III, Wolf, gold and silver; Nathan Bean, Wolf, gold; Brian Anderson, gold and silver.

The bottle drive will be May 3 from 9 a. m. to 12, meeting at the Bulldog parking lot. This is the last chance to earn money for camp. The last Pack meeting will be held May 27.

Thanks to all who made the cake bake successful this year.

BASEBALL/SOFTBALL SIGN-UP

Bethel Boys and Girls may sign-up for summer softball and baseball at the Bethel Town Office: Little League Baseball, ages 8-12; Girls' Softball, ages 8-12; Coit League Baseball, ages 13-16. There is a \$5 registration. According to the Bethel Recreation Board, the deadline is May 2.

TO OFFER CRASH INJURY MANAGEMENT COURSE AT RUMFORD HIGH SCHOOL

A Crash Injury Management Course co-sponsored by Rumford Community Hospital and Hawthorne Ambulance Service will be held on Monday and Thursday evenings, at Rumford High School, beginning May 26, and running for six consecutive weeks.

The course consists of 40 hours of instruction and will be taught by Bill Gates of Hawthorne Ambulance Service. There is a \$30 registration fee, plus a \$10 charge for optional materials. For registration or information regarding the program, call 562-7211. Application deadline is May 16.

ed during normal operating hours except in the case of facilities used only one or two days a week where the inspection could occur during a day the site is closed.

"Municipalities will be notified not later than early September of the determination of eligibility and will receive a copy of the inspection report on which the determination was based," McGlaulin said. These decisions will be subject to appeal, he added.

WALKING WITH JESUS CHRIST

The Queen of Sheba gazed in awe and wonder as she beheld the wisdom and wealth of Israel's "King Solomon" — having come hundreds of miles bearing gifts—to see and learn first hand of God's blessings upon Israel, a nation that loved God. —she turned and went away to her own land, she and her servants. —A sad commentary, for she did not know God.

The land of Israel—feasting and rejoicing—worshiped and praised God, saying "For he is good; for his mercy endureth forever"—II Chron. 7:4—living off the fat of the land, were not long being removed from their lofty estate to one of slavery and misery having turned from God.

Is there a parallel here?—as so many see the beauty of God's creation and the pure joy of the Christians—even in times of trouble—their hearts cannot comprehend the love of Christ? And, like the Queen of Sheba turn away to go our separate paths—having a form of godliness—not willing to be moved from their lofty estate to one of slavery and misery having turned from God.

America the beautiful—blessed with an abundance of natural resources—a land of milk and honey—fields of amber grain from sea to shining sea—a bread basket for all the world—a champion for the cause of freedom—a nation upon whose coins are inscribed the words: "In God We Trust."

We see our nation beset with many problems, both domestic and foreign. Are we like the ancient Israelites—I Kings 9:4—"having failed to walk in the integrity of heart, and in righteousness, to do all that God has commanded us"? —Yes — we have failed — but, there's still time — II Chron. 7:4—"If my people, who are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways, then will I hear from heaven, and will forgive their sin, and will heal their land."

Let us pray, seeking God's wisdom; pray for President Carter and leaders of State—for them to heed the voice of our God—and to heed the counsel of Godly men and women.

And, as Jesus said, "—Fear not, I am the first and the last; I am he that liveth, and was dead; and, behold, I am alive for evermore, Amen, and have the keys of hell and of death." Rev. 1:7, 18.

gible will receive a Solid Waste Management Application and Eligible Cost Report to be completed and returned to the DEP no later than Feb. 1, 1981.

Municipalities using private disposal facilities or facilities operated by another municipality are eligible to participate in the subsidy fund as well as those municipalities operating their own disposal sites, according to McGlaulin.

OUR LADY OF SNOWS PARISH ENJOY SUPPER AND SOCIAL

The Bethel Legion Hall was the scene April 27 of the Third Annual Supper and Social for Our Lady of the Snows Parish.

Weeks of preparation and fund raising proved very worthwhile. There were lots of hungry faces at the buffet table as approximately 110 people came to make this get-together a smashing success.

The entertainment was provided by the Telstar Jazz Band under the direction of Jerry Hefley. Selections of popular and big band music were enjoyed by all.

The lucky (and very astonished) winners of a 12 pound roast beef and all the trimmings were Mr.

Students of the E. M. T. Class, being taught by Arlene Greenleaf, worked on their C.P.R. and obstructed airway this week.

Safety Tip of the Week
Protect Older Citizens—

We may get wiser as we older, but we don't get more nimble-footed. Here are some suggestions on how older people can avoid falls and related injuries:

—Use a night-light or have a light switch beside the bed.

—Have sturdy handrails on both sides of the stairs.

—Use non-skid treads on stairs, and keep carpets firmly tacked down.

—Move furniture and other obstacles out of the normal travel path through the house.

—Install grab bars on bathroom walls and use non-skid mats in the tub.

—Keep outdoor steps and walkways in good condition and clear of anything that could cause a person to stumble.

HISTORIC RESOURCE SURVEY FOR BETHEL PROGRESSING

The Bethel Historic Resource Survey, begun the week of April 14, has progressed to the point where 25 local volunteers are working in the field, recording information about the buildings of the town. Several batches of forms have been completed and returned by volunteers to the Survey office at the Moses Mason House, some accompanied by photographs taken by the surveyors.

Oxford County Survey Director George Allen says that the Bethel project is "well begun," but notes that several areas of the town have not yet been assigned. "I would very much appreciate hearing from people who might have five to six hours to devote to the survey over the course of the coming month."

With some additional help, the survey for Bethel will be the first one completed in the county. The survey has been started in other localities: Peru, Mexico, Dixfield, Fryeburg, Gilead, and Hebron among them. In Hiram, members of the Historical Society are now filling out forms for Hiram Village and East Hiram. In Woodstock, the work of the children at the Woodstock Elementary School, directed by Mary Billings, has yielded a lot of information about houses that will be basic to the survey there. Allen will be giving a workshop for survey volunteers in Greenwood on May 12 at 7:30 p. m. at the Town Hall, and some members of the Greenwood Historical Society have expressed the hope that Greenwood will complete its survey by early June.

The survey will be assisted in May by two Gould Academy students, Jim Kowalski and Nora Murphy, who will work on the survey as their senior project. Ann Hobart, a staff member of the Androscoggin Valley Regional Planning Commission in Auburn, will also be working on the survey, undertaking districts in the southern part of the county.

Allen anticipates support from school classes in Rumford in May as well—Rumford Junior High School students will do some survey work projects for their Maine and local history courses.

Allen will address the Hebron Historical Society this coming Saturday, May 3, showing slides of Oxford County buildings and discussing the survey with people from Hebron and surrounding towns.

FREE BLOOD PRESSURE SCREENING MAY 9 IN NORWAY

Since the month of May is National Hypertension Month, the Medicine Shoppe pharmacy in Norway is offering to the public a free blood pressure screening on Friday, May 9, from 9:30 a. m. to 5:30 p. m. at the corner of Alpine and Paris Streets. Nurses from the Allied Health Nursing Service are administering the program, free to the community. In addition to the screening, informational literature will be available.

The screening is being conducted in an effort to create an awareness among the public of the effects of high blood pressure, and to help detect those who may have the disease and be unaware of it.

"We see the pharmacist as an important part of the health care team," says Henry Pelletier, pharmacist. "We believe these screenings will help to identify some of the 25 million Americans who are victims of high blood pressure."

High blood pressure is a killer, claiming the deaths of approximately 60,000 Americans annually and contributing to the death of 750,000 others.

The blood pressure screening is one of several free health screenings offered regularly to the public by the prescription-oriented pharmacy. Others include those for diabetes, colon-rectal cancer, oral cancer and clinics for known diabetics and those with foot problems.

Mrs. John Foster and children, Denise and David, of Andover, were luncheon guests of Mrs. David Foster Sunday. Mrs. Richard Stearns of Rumford Corner visited Mrs. Foster Monday.

More about our tour of Mexico—We left Mexico City on March 11 rather late as our driver called in sick, and it was a long time before they could get in touch with a driver who could drive us. Our driver's name was Guillermo (William) while our guide's name was Jaime. We used first names as our guide thought we might not remember their last names anyway. Probably we wouldn't! On our way to San Miguel Allende which was our next overnight stop, we visited Queretaro where the Emperor Maximilian was executed. We stopped on a high road to take pictures of the old Spanish aqueduct.

— Clarice Gibson, Corres. —

Today the students go back to school after a week's vacation. It is raining again after a beautiful Sunday morning. Frank, George and Ira spent the morning, raking, sweeping the road and carting off the piles they accumulated while cleaning up. Where does all the debris come from? How nice it looks though, after one finishes! In the afternoon it clouded over and this gave them a chance to watch the basketball playoffs, without feeling guilty. The Celtics aren't doing too well. This reminds me of a time 30 years ago in March when my sister-in-law, Roberta and I, were riding on a train to Kansas City. At one stop a group of men came onto the train with black gym bags marked "Celtics". This was before television and we knew they were together going to their next stop as one said "I will never take the train again, I will fly." For some reason we thought they were musicians. When we got off the train and told the person who met us that a group called the "Celtics" were on the car with us and they had used my suitcase to play cards on, he said "You fools, don't you know they are the biggest basketball team in the East. This was at the time of Bob Cousy."

Doug Smith of Cape Cod, visited his parents, Mr. and Mrs. Homer Smith for the week end.

Robert and Cindy Belanger of Bethel were Saturday evening visitors of Mr. and Mrs. Homer Smith and family.

Mr. and Mrs. Daniel Hannon and two girls spent the vacation between their parents, Mr. and Mrs. Lou Belanger of Portsmouth, N. H., and his parents, Mr. and Mrs. George Hannon in Durham, N. H. While there they took the girls to see "The Lady and the Tramp".

Daniel Hannon will be coaching Middle School baseball.

Tuesday evening George and I went to Portland Jelpert to pick up Ira, who had graduated that afternoon from boot camp, Parris Island, S. C. On the way home we stopped in Norway to visit my folks, Mr. and Mrs. George Allen and my aunt, Marion Wilson of Lawrence, Mass., and cousin Shirley Petzold, Andover, Mass.

April 22 Mr. and Mrs. Lester Butters went to Coos County Nursing Home, Berlin, N. H., to visit Mrs. Ethel Elliott. On the way home they stopped in to visit Chester Hayes, Shelburne, N. H.

Judy Coolidge substituted teaching at school April 28 and Alberta Angevine took care of her two granddaughters.

Mr. and Mrs. Victor Coolidge went to the dance at Locke Mills Saturday.

Alberta Angevine and Betty Blake went to see their mother, Mrs. Rena Abbott, Dixfield, Thursday.

Mr. and Mrs. Ernest Angevine and Betty Blake went to the Northlands, Berlin, N. H., Saturday. On the way home they stopped in Gorham, N. H., to visit Ernest's sister, Agnes Deblois.

Pat and Richard Saunders visited her sister and family, Mr. and Mrs. Ronnie York and two children, Bar Mills, Monday to Wednesday.

Mr. and Mrs. Charles Mason Jr. had for Sunday dinner, Mr. and Mrs. Charles Mason III and three children, Olga Morgan, Greenwood and Mr. and Mrs. Scott Mason and two children. In the afternoon Mr. and Mrs. Leo Ledger and daughter Judy, Bog Road, West Bethel, stopped in and for Sunday night lunch, Mr. and Mrs. Frank Aylward, Connecticut, joined the Mason family.

Safe in His Care
Help me, Lord, to keep on trusting
Even when the way is bleak,
And my throat is sore from crying
And my voice can hardly speak.
Take away my pain and sorrow,
Let me feel Thy presence near;
Help me walk in sweet progression
Attended by Thy hand. No fear
Of what is come before me,
No looking back at things that were—
Grant me grace to live each moment
With the things that be, assured.
If my human strength would falter
Under bars and heavy load,
Come Thou here and ease my burden
Lest I totter down the road.
If my spirit wanes in trying,
And faint tenors take command,
For me, Lord, to keep on walking:
Guided, strengthened by Thy hand.

God gave me the flowers... to have and to hold... the beautiful sunset... with colors of gold... He gave me the clouds... and the moon's mellow light... the twinkling stars... that are windows of night... God gave me the trees... to express His love... the song of a bird... as it glides high above... God then gave the snowflakes... so white and so pure... bestowed me with hope... and the faith to endure... God favored me with love... many wonderful things... gifts that cannot be bought... with the wealth of 10 kings... God gave me the oceans... beneath skies of blue... but God gave the world... when He gave me you. (by Ben Burroughs)

We had a sprinkle of snow April 22 in the morning. I had appointment to have winter tires changed and I made it.

I called on Mona and Rennie Cole and they said Clarence Reid, local, Mr. and Mrs. Alton Black, daughter Marie and her son Terrie, Augusta, were their Sunday dinner guests. Clarence and Bill taught in West Paris High for many years. Bill and I also joined Onward Rebekah Lodge the same night. They had given the goat an extra measure of oats so Bill didn't hang on any better than I did.

S. A. D. #44 BOARD MEETS

continued from Page One
Students, who are in the program voluntarily, have had difficulty in reading and this has affected their academic work. The Literacy Volunteers program has given the students self-confidence and has improved their attitudes toward school. The community volunteers in the program must complete an 18-hour training program prior to assisting the students.

Telstar staff members Ted Davis and Helen Berry reported on the career education team of S. A. D. #44. The team received initial training in the form of a State grant. The district is one of the lead sites for this type of program in the state and has had high commendations. Resource centers have been set up for both teachers and students. A recertification course has been set up for teachers. Displays concerning the program, a "Life Directions" course for juniors and seniors, and a media project concerning forestry have also been undertaken. Teachers have found that aspects of career education can be added to current offerings. Elementary students have learned about career education through field trips and secondary students have had small seminars.

Mary Ann O'Connor, S. A. D. #44 Health Education Coordinator, distributed the proposed Health Education topics, "Substance Use and Abuse," and "Family Life," to members of the board. The directors are scheduled to act on these items at their May 5 meeting.

The board granted a one year leave of absence to Katherine Swain, a special education teacher at Woodstock/Locke Mills. Authorization was granted to post a one year vacancy in the position.

The board approved Peter Brown (baseball) and Gerry Durgin (softball) as adult education teachers to conduct a one-night "Coaches Clinic" under the auspices of the Adult Education Program and Recreation Boards of area towns.

Elementary Supervisor Adler Muller gave the board an explanation of the Title I program for the current year and plans for the next year. Title I staffing for the 1980-81 year was approved.

The directors approved Wayne Howe as the assistant baseball coach at the Telstar Middle School for the current year.

Five staff members currently on their first probationary contract were granted second probationary status. The board named to continuing contract status and approved annual salary agreements for five teachers currently on second probationary status. Annual salary agreements were approved for 72 teachers currently on continuing contract status.

Board members Darlene Hall of Andover, Ruth Feeney of Bethel, and James Sysko of Newry, were absent Monday evening.

Hosts for the evening will be the Oxford County Mineral and Gem Association. Larry's program will follow the regular monthly meeting of OCMGA, scheduled to convene at 7:30 p. m. OCMGA President Sally Spencer hopes that everyone interested in energy problems and energy solutions—and who can avoid being interested these days?—will come to see the film and hear what Larry has to say. The public is cordially invited.
